Hi Nick, I will be at the AOL meeting in Eugene where Jim will be the keynote speaker. I believe Glenn has a speaking role as well.

Something to highlight in the salvage information is most Forests have taken a more aggressive tact dealing with danger trees as fire wind down. We compete service contracts to hire logging sides to fall, process, haul and slack logs from danger trees. The Willamette will sell about 5 million board feet from these operations in January. This will come from the Terwilliger Fire.

Subject: REVIEW REQUESTED: Under Secretary's Hot Topics by COB January 4
Importance: High

R6 Directors and Oregon Forest Supervisors,

USDA Under Secretary Jim Hubbard is traveling to Oregon in mid-January to attend the annual conference of Associated Oregon Loggers. In light of the upcoming holidays I am circulating a draft Hot Topics document now so that you have ample time to review. Please look it over and ensure the information relevant to your staff area/unit is accurate and complete.

There are a couple of topics listed that certain staff areas will need to populate (namely S&PF and ENG—look for highlighted portions in the attached draft). If there are additional topics that you think warrant inclusion

please work with appropriate staff to develop a *brief* overview that mirrors the Topic/Background/Talking Points format of the attached draft.

Please **use tracked changes for any revisions and email me your responses as by COB on Friday, January 4th** so that I can consolidate your edits, move the final draft through RFT review, and deliver this information to the WO by our January 9th deadline.

Thanks,
Nick

Subject: FW: Under Secretary Travel to Eugene - Hot Topics requested by COB January 9

Good morning, all.

I am beginning to compile a Hot Topics document for Under Secretary Hubbard's trip to the Associated Oregon's Loggers annual meeting in mid-January, per the trailing message. I plan to populate this document with selected/refined information from the RF's onboarding materials. I will give all Directors and OR Forest Supervisors an opportunity to provide feedback and verify the information in that document once it is ready.

I am reaching out to you this group now to gauge whether there are any new or emerging issues that were not included on the RF's onboarding docs and ought to be included here. Please let me know if so. Note that AOL is an Oregon- and timber-centric group, so each topic should have nexus to that geography and program.

Thanks in advance for any ideas or guidance.

Nick

Hi Nick,

Thank you for beginning to work on these.

Best,
Heather

Hi Shoni and Heather,

It's a ways out but I figure with the holidays I'd send this to you. NRE is requesting more hot topics for Oregon for Under Secretary Hubbard's visit to Eugene, OR on January 18 for the Associated Oregon Loggers annual convention. They'd like them by January 10, so please get them to me by COB your time on January 9.

Attached is what you sent me for Oregon back in September if it's easier to just update that – thought preferably we need it in a Topic, Background, Talking Points format.

Thanks so much! Also, the Capitol Christmas Tree arrived, the Chief's office tree is gorgeous and smells like Oregon, all the ornaments are beautiful and the team is great and I think everything's going really well.
